INVITATION TO BID

PURCHASE OF
TRACK LOADER & RUBBER TIRE LOADER

Department of Public Works: Solid Waste Division
Bedford County, Virginia

1.0 INTRODUCTION

Bedford County’s Department of Public Works invites interested qualified bidders to submit bids for the lease purchase of one (1) track loader and one (1) rubber tire loader. This equipment will operate at the Bedford County Waste Management Facility located at 1060 Recycle Road, Bedford, Virginia.

2.0 BID CONTENTS

2.1 Bid Form: The enclosed Bid Form must be submitted and all blanks completed. The Form will list the equipment being offered, the offeror's name, address, telephone, email address, the appropriate contact person, date, and certification statement from an authorized official of the firm that verifies the understanding and ability of the firm to provide the requested equipment in a timely manner, and that all required items are contained within the response to this Invitation to Bid.

2.2 Experience and Qualifications: Each firm submitting a bid must provide a brief history of the firm including years in business and size of the firm.

2.3 References: Reference information is requested whereby each firm submitting a bid must provide at least three (3) references that are using the offered piece of equipment or nearly similar model. Preferably these references will be in Virginia, but out-of-state references are appropriate if necessary. References in similar waste management environments are also preferred. References shall be used to assure Bedford County that the acceptable low bidder has been responsible in previous equipment procurement agreements.

2.4 Execution of Bids: Bids must be executed in the corporate name by the president, vice-president or other authorized corporate officer, and the corporate seal must be affixed and attested to by the secretary or an assistant secretary. A bid bond (or certified equivalent) of 5 percent of the amount of the bid must be enclosed.

3.00 TRACK LOADER SPECIFICATIONS

3.1 General: Sealed bids are requested for the purchase of one new rear engine hydrostatic track loader. The successful bidder will be responsible for fully mounting all other components necessary to complete the unit and for delivery of the fully completed, serviced, and ready for operation unit to the purchaser. The equipment called for in this specification shall be a new track type front end
loader equipped for use in a landfill environment. It shall be a standard model of one manufacturer and currently in production. The selling dealer shall provide the parts and service facilities to service the machine and all of its components, and assure its performance. One complete operation and maintenance manual (set) must be delivered with the machine.

3.2 Engine: Engine shall be a minimum of a six cylinder, water cooled diesel, including all necessary accessories, and shall deliver at least 189 horsepower at not more than 1,800 RPM. Piston displacement shall be at least 400 C.I.D. with direct injection fuel system. 24-volt two-stage dry type and equipped with a cold weather starting aid and an electric fuel priming pump. Shall be EPA Tier 2 compliant.

3.3 Transmission: Shall have hydrostatic drive capable of non-stop directional changes, counter-rotation and infinite variable speeds up to 6.0 mph in both directions. Drive system shall have two axial piston pumps and two axis piston motors.

3.4 Guards: Shall have heavy duty powertrain guarding for all major components including engine, belly pan, transmission, radiator, sprocket, final drive seals, idler and lift cylinder lines.

3.5 Bucket: The bucket shall be a heavy duty general-purpose bucket with at least 3.2 cubic yard S.A.E. rated capacity with spill guard. Shall have (8) bolt-on type adapters with pin-on teeth and bolt-on bucket segments. Corner adapters shall be included and designed to prevent bucket wear. Automatic bucket positioner and automatic kick-out at full lift height. Dumping clearance at 45 degree discharge shall be 10’4” minimum.

3.6 Dimensions & Weight: The operating weight of the machine equipped as specified shall be no less than 42,000 lbs without the use of counterweight. Ground clearance shall not be less than 15 inches.

3.7 Undercarriage: Shall have a minimum of 6 track rollers with heavy duty undercarriage. Track rollers, support rollers and idlers shall be permanently lubricated. Length of track on ground shall be 97 inches, minimum. Track shoes shall be of an extreme service type, double grouser, sealed and lubricated, with a maximum width of 22 inches. Sprocket rims shall be segmented. Shall have a two-piece master link for ease of track removal and installation. Hydraulic track adjusters and track end guiding guards shall be provided. Roller frames shall have a pinned equalizer bar and pivot shafts and be capable of a +/- 1.5 degrees of oscillation, minimum.

3.8 Hydraulics: Hydraulic system shall be of a dirt-free, non-vented vane type design. Pump output at rated engine speed and 1,000 P.S.I. shall be at least 54 G.P.M. Main relief valve setting at rated engine speed shall be 3,000 P.S.I.

3.9 Steering: Shall be Hydraulic assist, capable of counter-rotation within the machine’s length.

3.10 Brakes: Shall have a center braking pedal between the steering pedals. Shall be equipped
3.11 **Final Drive:** Shall be planetary design and isolated from machine weight and shock loads by track roller frame pivot shafts. Shall be capable of being serviced without breaking the track. Shall be equipped with final drive abrasion guards.

3.12 **Miscellaneous:** Breakout force with a general-purpose bucket shall be 38,800 lbs., minimum.

3.13 **Instrument:** Shall have a full range of gauges or indicators mounted on an instrument panel to include, but not limited to, amp meter, hour meter, engine oil temperature, coolant temperature and transmission oil temperature or equivalent, with a main warning light and audible alarm for system monitoring.

3.14 **Additional Equipment:**

   a. ROPS fully-enclosed cab with sound suppression including pressurized operator’s compartment of a walk through design with two doors.
   b. Heater, defroster and factory installed air conditioner.
   c. Windshield and back window washers & wipers
   d. Anti-vandalism kit including, but not limited to, locking engine compartment, fuel cap, hydraulic tank cap and locking cab
   e. Three sets of keys
   f. Two front and two rear machine mounted operating lights and two roof mounted lights with guards.
   g. Air suspension seat with seat belt
   h. Fire extinguisher, 10 lb. ABC rated
   i. High ambient radiator, with no more than six fins per inch and extended life coolant.
   j. Hand lockable, swing open radiator grill.
   k. Backup alarm
   l. Rear bumper
   m. Heavy duty batteries, 950 CCA and maintenance free.
   n. Turbine type air precleaner
   o. Drawbar hitch.
   p. Main disconnect switch.
   q. Scheduled oil sampling to include kits, extraction gun and all associated costs of the analysis for 3 years or 7,500 hours, whichever occurs first.
   r. Perforated engine doors and screened hood.
   s. Fender deflectors and rear striker bars.

3.15 **Trade-In:**

   The County may consider offering a Caterpillar 963C Track Loader, serial number BBD02471, for a trade-in allowance. The loader may be inspected throughout the bidding process at the Bedford County Waste Management Facility by appointment.
4.0 ARTICULATED RUBBER-TIRE LOADER SPECIFICATIONS

4.1 General: Sealed bids are requested for the purchase of one new four-wheel drive wheel loader with integral quick coupler. The successful bidder will be responsible for fully mounting all other components necessary to complete the unit for delivery of the fully completed, serviced and ready for operation unit to the purchaser. One complete parts, operator, maintenance and repair manuals specific to the unit must be provided. The machine shall be a current standard model of one manufacturer currently being produced, and the selling dealer shall provide the parts and service facilities to service the machine, all of its components and assure its performance.

4.2 Engine: Engine shall be minimum of six cylinder, emissions compliant, turbo-charged, water cooled diesel and deliver at least 145 Net horsepower at 1,800 R.P.M. Piston displacement shall be at least 400cu.in. with direct injection fuel system. A 24 volt electrical system with a disconnect switch and 95 amp alternator, minimum. Air cleaner shall be two-stage dry type. Shall be equipped with cold weather starting aid, power train guard, crankcase guard, and vertically mounted oil filter.

4.3 Transmission: Shall be a power shift with four forward and three reverse speeds capable of both manual and automatic shifting. Both speed and directional changes shall be actuated by a single control lever mounted on a tilting steering column. The torque converter shall be a single state, single phase design. A standard transmission neutralizer lockout switch shall be provided. Shall be equipped with a remote forward / neutral / reverse switch.

4.4 Final Drives and Axles: Shall have inboard mounted planetary final drives. Front axle shall be fixed, rear axle shall oscillate at least 24 degrees. A limited slip differential shall be provided on the front and rear axles. Shall be equipped with a driveshaft guard.

4.5 Brakes: Service brakes shall be of an enclosed wet disc design hydraulically actuated with separate circuits for front and rear axles. Secondary brake system shall be actuated automatically if the engine stops. A parking brake shall be standard. Shall be equipped with two brake pedals.

4.6 Steering: Shall have hydraulic steering through a variable flow piston pump. Maximum turning radius shall be 16’9”. Steering angle shall be 40 degrees each direction, minimum, with centerpoint frame articulation.

4.7 Hydraulic System: Shall be of an closed centered, sealed-type design with pilot-operated controls. The steering and braking system shall be independent of the implement hydraulic system. Hydraulic cycle time shall be no more than 9 seconds, measured with a rated bucket load. Shall have a two position automatic return to dig bucket/fork positioner, automatic lift kick-out and implement control lever effort of not more than 5 pounds. Third value hydraulics shall be provided.

4.8 Linkage: Shall provide parallel lift capability throughout the lift cycle. Shall have a one piece box section lift arm for strength and visibility.
4.9 **Quick Coupler:** Shall be equipped with a quick coupler designed as an integral component of the linkage system. The coupler shall have hydraulically activated tool retention pins that are activated from the operator=s compartment. Only two hose connections shall be necessary when installing tools that require the use of third valve hydraulics.

4.10 **Operating Requirements:**

a. Operating weight shall be 25,000 pounds, minimum, with 2.7 cubic yard general-purpose bucket with a rubber tip.

*To reduce costs, the County may elect to utilize the bucket from the County’s existing Caterpillar 924G Loader. Offerors must provide a cost for the machine with the bucket listed above and the cost for the machine reusing the existing bucket. The County’s existing bucket will be available for inspection throughout the bidding process at the Bedford County Waste Management Facility by appointment. The existing bucket must fit the proposed loader with no significant changes to either the bucket or the loader. In the event the existing bucket will not attach to the bidder’s loader, this should be noted on the bid form.*

b. Full turn static tipping load shall be at least 16,000 pounds 24-volt starting and charging system with two 12-volt, 100-amp batteries and 50-amp alternator
c. Breakout force shall be at least 23,000 pounds
d. Reach at full lift and 45-degree discharge shall be at least 60”
e. Shall be equipped with 17.5-25, 12 ply, L-5 tires. Tread pattern should be half tracked tread and half solid tread.

*To reduce costs, the County may elect to utilize the tires and rims from the County’s existing Caterpillar 924G Loader. Offerors must provide a cost for the machine with the tires and rims listed above and the cost for the machine reusing the existing tires and rims. The County’s existing tires will be available for inspection throughout the bidding process at the Bedford County Waste Management Facility by appointment. The existing tires must fit the proposed loader with no significant changes to either the tires, rims, or the loader. In the event the existing tires will not attach to the bidder’s loader, this should be noted on the bid form.*

4.11 **Operator’s Compartment**

a. ROPS cab shall be sound suppressed and pressurized with tinted glass.
b. Cab shall have two doors with sliding windows that open 180 degrees and lock for ventilation.
c. Back-up alarm and front warning horn.
d. Heater, defroster and factory installed air conditioner
e. Adjustable air suspension seat and retractable seat belt
f. Front and rear windshield washers and wipers
g. Directional signal lights, front and rear
h. Halogen working lights, four front and two rear with guards
i. Multi-level warning system to monitor critical machine functions and alert the operator of
malfunctions by a combination of audible alarms and flashing lights.
j. Gauge group shall include, but not limited to, fuel, transmission & oil temperature, hydraulic
oil temperature and engine coolant temperature.
k. Two outside mirrors
l. Windshield guard
m. High ambient radiator, with no more than six fins per inch.

4.12 Additional Equipment
a. Heavy-duty batteries, minimum of 900 CCA
b. Diagnostic connectors for hydraulic system
c. Drawbar hitch
d. Steel fenders, front and rear
e. Heavy duty hydraulic oil cooler
f. Muffler with rain cap or deflector
g. Fuel priming pump
h. 10-pound fire extinguisher, ABC rated
i. Anti-vandalism kit including, but not limited to, locking engine enclosures, fuel cap,
hydraulic tank cap and locking cab.
j. Rotating beacon, roof mounted
k. 120 Volt engine block heater
l. Automatic, hydraulic reversing fan

4.13 Attachments:

a. Existing Balderson, hydraulic, 8 foot sweeper, or equivalent.

*To reduce costs, the County may elect to utilize the sweeper from the County’s existing
Caterpillar 924G Loader. Offerors must provide a cost for the machine with the sweeper listed
above and the cost for the machine reusing the existing sweeper. The County’s existing sweeper will
be available for inspection throughout the bidding process at the Bedford County Waste Management
Facility by appointment. The existing sweeper must fit the proposed loader with no significant
changes to either the sweeper or the loader. In the event the existing sweeper will not attach to the
bidder’s loader, this should be noted on the bid form.

4.14 Trade-In:
The County may consider offering a Caterpillar 924G, serial number DDA02561, for a trade-in
allowance. The loader may be inspected throughout the bidding process at the Bedford County
Waste Management Facility by appointment. Trade-in allowance should take into effect, the
potential reuse of the loader bucket and tires, if necessary, mentioned above.

5.0 WARRANTY & LEASE PURCHASE
5.1 Warranty: If significant warranty differences exist between bidders, Bedford County may negotiate specific warranty items with the low bidder.

a. Machine will carry a comprehensive, minimum, twelve (12) month manufacturer's warranty on parts and service including travel time and mileage.

b. Bidder agrees to provide and guarantee purchaser an extended warranty for a period of 5 years or 7,500 hours, whichever occurs first. Details of this warranty shall accompany the bid.

c. Scheduled oil sampling to include kits, extraction gun and all associated costs of this analysis and reporting to Bedford County for the entire 5 year or 7,500 hour period, whichever occurs first.

5.2 Service Availability Guarantee During Warranty Period: In the event of a warrantable failure, the bidder agrees that a service technician will be onsite at the purchaser's location within 24 hours after being notified to evaluate and/or repair a non-operable piece of equipment. Excluding Sundays and certain holidays (Fourth of July, Thanksgiving Day, Christmas Day and New Year's Day), for every hour after the 24 hours the bidder will provide an hourly credit of $25 for each hour that a technician does not arrive.

5.3 Machine Availability Guarantee During Warranty Period: In the event of a warrantable failure, the bidder shall guarantee to repair the machine to an operating condition within 72 hours, excluding Sundays and certain holidays (defined above), from the time of being notified. If the bidder cannot comply with this clause, after 72 hours a comparable machine will be provided by the bidder at no cost, except transportation, or a daily rental credit payment of $400.00 will accrue until repairs are completed and the machine available for use. Transportation cost of replacement equipment shall be at the equipment vendor's expense.

5.4 Parts Availability Guarantee During Warranty Period: If purchaser orders a new part necessary to operate the machine and the part is not delivered to the facility within 72 hours, excluding Sundays and certain holidays (defined above), the bidder shall upon request, furnish the part at no cost. Parts covered by this guarantee must be ordered from the bidder's parts department during normal working hours. This guarantee will not apply when parts are ordered by bidder in connection with warranty service work in progress.

5.5 Delivery: Upon delivery of equipment, a Company representative shall be required to inspect the machine and review each specification with a County representative. In addition, a Company representative shall be required to instruct purchaser's personnel on operation and daily maintenance of the equipment for a period not to exceed two days, at no additional cost to the purchaser. Bedford County reserves the right to refuse delivery for material specifications that differ from this Invitation to Bid.
5.6 **Bid Bond:** Bidder shall provide a bid bond attached to the bid of not less than five percent of the amount of the bid, made payable to the purchaser. Such bid bond shall be submitted with the understanding that it shall guarantee the bidder will not withdraw the bid during the period of thirty days following the opening of the bids.

5.7 **Lease Purchase:** Bidders should provide a 5-year payment schedule with 60 equal payments. Bidders should indicate the name of the finance company, contact person, phone number, and annual percentage rate (APR). Potential lenders may access the County's Comprehensive Annual Financial Report (CAFR) online at the County's website at www.bedfordcountyva.gov

6.0 **GENERAL INFORMATION**

6.1 **Issuing Office:** Office of the County Administrator
Bedford County
122 East Main Street, Suite 202
Bedford, VA 24523

6.2 **Inquiries:** Interested bidders are encouraged to request clarification concerning specifications and bidding requirements prior to submitting a bid. All inquiries concerning this Invitation to Bid should be addressed to Sheldon Cash, by email at scash@bedfordcountyva.gov. Any addendums issued during the procurement process will be posted to the County's website at www.bedfordcountyva.gov.

6.3 **Issuing Date:** October, 7 2016

6.4 **Closing Date/Time:** **Wednesday October 19, 2016 at 2:00 p.m.** In order for all bids to be fairly considered, a sealed bid shall be forwarded to the Issuing Office, clearly marked Bid-Heavy Equipment. All bids will be opened in the Issuing Office and made available for public inspection at the closing date & time.

6.5 **Incurring Cost:** The County is not liable for any cost incurred by any bidder, or selected contractor, prior to the execution of a contract.

6.6 **Evaluation of Bids:** The Issuing Office intends to award work under this Invitation to Bid to the responsible bidder with the lowest responsive bid. Prices quoted are binding for the duration of the contract period as specified in this Invitation to Bid. At Bedford County's sole discretion, the selected low bid may be based on (1) Total Cost or (2) Total Cost after Trade-In Allowances/Reuse of Attachments or (3) Total Cost and Lease Purchase financing after Trade-In Allowances/Reuse of Attachments.

6.7 **Negotiation with Lowest Bidder:** In the case that the lowest bid exceeds the available funds
of the County, the County reserves the right to negotiate with the apparent low bidder to obtain a contract price within available funds.

6.8 Bid Binding: The contents of the Bid, in their entirety, submitted by the Contractor shall become an attachment to and part of the agreement between the Contractor and the County. The bidder agrees that this bid will remain open for sixty days after the day of the bid opening. This Invitation to Bid shall become in total a part of the final contract. The submitted bid must be contained fully within a sealed envelope prior to the closing date/time. Writing on the outside of the envelope is not valid and shall not be considered as part of the bid. The County reserves the right to withhold payment to Contractor if any of the articles in this document are not upheld, until situation is rectified.

6.9 Non-Discrimination: During the performance of this Contract, the Contractor agrees as follows:

1. The Contractor will not discriminate against any employee or applicant for employment because of race, religion, color, sex, national origin, age, disability, status as a service disabled veteran, or any other basis prohibited by state law relating to discrimination in employment, except where there is a bona fide occupational qualification reasonably necessary to the normal operation of the Contractor. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this nondiscrimination clause.

2. The Contractor, in all solicitations or advertisements for employees placed by or on behalf of the Consultant, shall state that such Contractor is an equal opportunity employer.

3. Notices, advertisements and solicitations placed in accordance with federal law, rule or regulation shall be deemed sufficient to meet this requirement.

The Contractor will include the provisions of the foregoing paragraphs, 1, 2, and 3 in every subcontract or purchase order of over $10,000, so that the provisions will be binding upon each subconsultant or vendor.

6.10 Drug-free Workplace

Every Contract of over $10,000 shall include the following provisions:

During the performance of this Contract, the Contractor agrees to (i) provide a drug-free workplace for the Contractor’s employees; (ii) post in conspicuous places, available to employees and applicants for employment, a statement notifying employees that the unlawful manufacture, sale, distribution, dispensation, possession, or use of a controlled substance or marijuana is prohibited in the Contractor’s workplace and specifying the actions that will be taken against employees for violations of such prohibition; (iii) state in all solicitations or advertisements for employees placed by or behalf of the Contractor that the Contractor maintains a drug-free workplace; and (iv) include the provisions of the foregoing clauses in every
subcontract or purchase order of over $10,000, so that the provisions will be binding upon each subconsultant or vendor.

For the purposes of this section, “drug-free workplace” means a site for the performance of work done in connection with a specific Contract awarded to a Contractor in accordance with this chapter, the employees of whom are prohibited from engaging in the unlawful manufacture, sale, distribution, dispensation, possession, or use of a controlled substance or marijuana during the performance of the Contract.

7.0 CONCLUSION

Bedford County requests that an original sealed bid in response to this Invitation to Bid be submitted to the Bedford County Administration Office by 2:00 p.m. on Wednesday, October 19th. The bid should be clearly marked Bid-Heavy Equipment. Without exception, bids delivered after this date and time will not be accepted. Please contact Sheldon Cash, Director of Public Works at scash@bedfordcountyva.gov for additional information.
BID FORM

PROJECT: Purchase of Track Loader
Department of Public Works, Bedford County, Virginia

1. The undersigned Bidder proposes and agrees, if this Bid is accepted, to enter into an agreement with Bedford County as stated in any future Notice to Proceed to complete all work as specified and within the time indicated in the Notice to Proceed and in accordance with this Invitation to Bid. Bidder accepts all of the terms and conditions of the Invitation to Bid and Notice to Proceed. Bidder will sign the Agreement, and submit any documents required within seven days after the date of Bedford County's Notice to Proceed. Bidder must fill-in all blanks in ink or with typewriter.
