

BUILDING INSPECTIONS

FIELD INSPECTION POLICY

Building inspections will be performed upon request on our voice mail system as directed. Requests received prior to 7:00 a.m. will be scheduled for the same working day. Requests received after 7 a.m. will be scheduled for the following working day. If overwhelming work loads prevent an inspector from completing his daily schedule, your inspection will be prioritized and performed the following day. Inspections will be scheduled as follows:

- Service changes without power and emergency repairs will be prioritized when possible according to approximate time frame.
- Footings and ground work will be prioritized on overloaded work days.
- Inspections may be requested for a.m. or p.m. and will be honored only if work load and schedules allow.
- Inspections will not be made by appointment.
- Site must be identified with placard provided, accessible and open if necessary or a \$25.00 reinspection fee will be applied as per Bedford County Code Sec. 5-25.
- Work not completed prior to inspection will be subject to a reinspection fee.
- Inquiries about inspections may be made through the office at (540) 586-7616. Only scheduling information will be given.
